

Cosmic Pencil Drawing - Mahatma Gandhi

Art is a beautiful way of expressing mind . Art reveals the real thought of the mankind. Each and every person his is own style of Hand Writing. In the same way artists are also having different styles. They cannot change their style. We can recognise the style of every artists at a glance. Their style cannot vary only in the portraits. In portraits they have to express the same figure like the models. In natural arts, of course style changes according to the artist's view. The paint, the base, the model which the artist selects, the brush, the knife which the artist uses, decides the art.

Art done by whom ? This question stands first. Art done by famous artists stands first in the marketing field of art. Every human is having artistic mind . We cannot judge the mind of the art lovers. Their taste differs. Some body likes **bright colour** and somebody likes **dull colours**. Some are natural art lovers some are realistic art lovers. Some likes modern art . **So we cannot judge the taste of the viewers**. It depends upon their mind. Some how art must keep one's mind calm, happy and peaceful. Art is a way to depict the meaning what the artist wants to express.

From the ancient period art helped the man to express his ideas to others. So art acted as language. In **EGYPT**, the Egyptians expressed all their life style to the world through their arts. The walls of the Pyramids shows a proof for it. The very huge pyramids are an excellent living example for the Egyptian civilization. The Egyptologists (researchers) says that the pyramids are built to brought the universal cosmic rays to the earth. So **in the same way Mr.Muthukrishan** is bringing the Universal Cosmic Rays to the earth through the **Cosmic Paintings** and **Sculptures** by using his own **Anthro Biometric Research Method**.
